Joint Committee on Climate Change (JC3)
Climate Finance Innovation Lab

Sasana Symposium 2025

18 JUNE 2025

An initiative by:

JC3 Joint Committee on Climate Change

Administrator:

BPMB Malaysia Development Bank

Strategic Partner:

UNDP

JC3 CFIL overview

Climate Finance Innovation Lab (CFIL) is a collaborative platform designed to **ideate**, **develop**, and **accelerate** innovative climate finance solutions and mechanisms that can mobilise private and public finance to support Malaysia's transition to **net zero**, to strengthen its **climate resilience** and to advance **nature-positive actions.**

Purpose

CFIL
Climate Finance Innovation Lab

Mobilise private and public finance for climate actions
to achieve Malaysia's climate ambitions, to strengthen climate resilience and to advance nature-positive actions

Objectives

1. **Identify climate and nature projects**
2. **Explore innovative funding solutions**
3. **Mobilise capital for climate projects**
4. **Strengthen public-private collaborations**

Where we play?

Marginally bankable projects in the key sectors:

- **Energy transition and green innovation**
- **Circular economy and sustainable cities**
- **Sustainable agriculture**
- **Nature-based solutions and biodiversity**

Eligibility criteria

- Project that benefits **Malaysia**
- Aligned with **national priorities** and climate goals
- Contribute to **climate mitigation or adaptation** objectives
- Comprise activities in at least one of the above key sectors

JC3 CFIL operating model

CFIL adopts a modular and adaptive approach for greater flexibility and scalability to allow for solutions to be co-developed, designed and tested through multiple Labs.

JC3 Joint Committee on Climate Change

Governance

Joint Committee on Climate Change (Co-chairs) - Set direction and oversee

CFIL Administrator (BPMB - Appointed by JC3 Co-chair) – Facilitate, coordinate and monitor implementation

Promote | Screen | Facilitate | Coordinate and Monitor | Monitor

Phases

1 Sourcing	2 Screening	3 Financial call	4 Development	5 Implementation
Sourcing of projects from [1] government (e.g., NETR projects), [2] funders, [3] open submission	Screening based on eligibility criteria to ensure alignment with CFIL objectives	Open call for funders to express interests in the eligible projects through the website	Conduct project labs for each eligible project to ideate financing structure and solutions, and build capacity	Mobilise capital based on the financing model and monitor/report impact

Activities

CFIL Screening Criteria

3.1 Industry roundtable → 3.2 Information memo circulation → 3.3 Funder(s) expression of interest → 4.1 Pre-pitch elevator programme → 4.2 Project presentation session → 4.3 Data sharing → 4.4 Funder conducts assessment → 4.5 Financial solutioning workshop → 5.1 Term sheet, legal documentation, signing → 5.2 Disburse/ mobilise capital → 5.3 Monitor impact and progress

CFIL supports project owners **address common challenges** when engaging with funders and other stakeholders

CFIL is more than a platform, it is a catalyst to co-develop and scale transformative climate solutions – Let's work together to accelerate climate actions
